

MAXIMUM MARKS: 100	PRACTICE PAPER: 1	TIME: 2 HOURS
--------------------	-------------------	---------------

Section I: Mental Ability Test

Part 1: Instructions: In Questions 1 to 4, a question figure is given on the left side, in which one part is missing. On the right side, answer figures are given as (a), (b), (c), and (d). Look at the answer figures and select the correct answer figure that completes the missing part of the question figure **without changing its direction**. To indicate your answer, darken the circle corresponding to the respective question number on the OMR Answer Sheet.

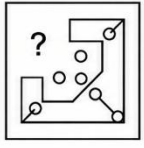

1. 

 A

 B

 C

 D

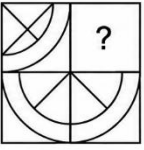

3. 

 A

 B

 C

 D

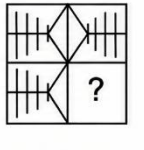

2. 

 A

 B

 C

 D

4. 

 A

 B

 C

 D

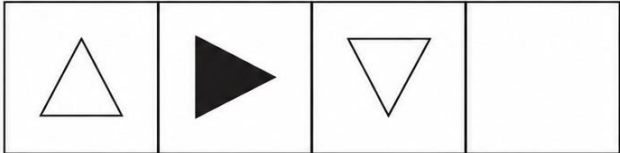

Part 2: Instructions: In Questions 5 to 8, three question figures are given on the left side, with a blank space in the fourth position. These figures follow a sequence. From the answer figures given on the right side, select the figure that completes the sequence and fits correctly in the blank space. To indicate your answer, darken the circle corresponding to the respective question number on the OMR Answer Sheet.

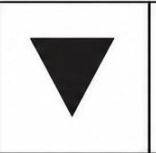

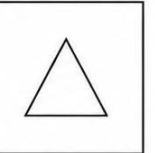

5. 

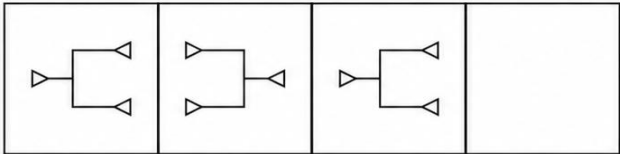

(a)  (b)  (c)  (d) 

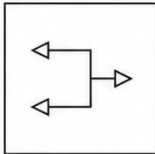

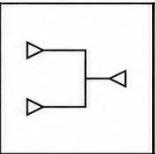

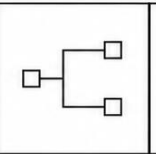

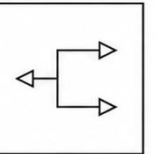

6. 

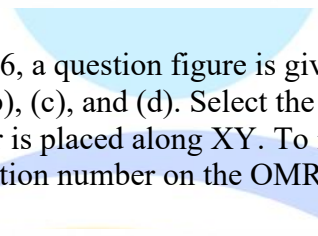

(a)  (b)  (c)  (d) 

7. 

(a)  (b)  (c)  (d) 

8. 

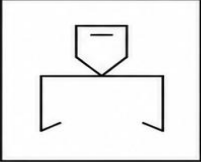

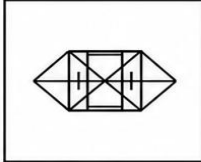

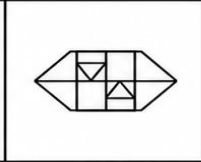

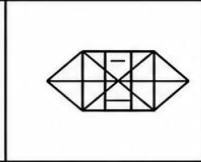

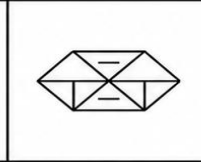

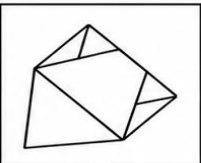

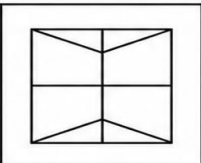

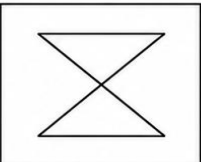

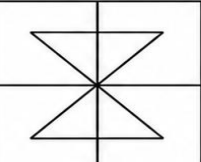

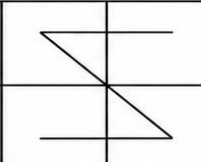

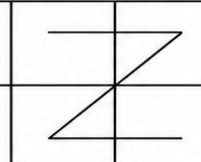

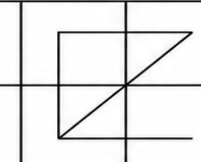

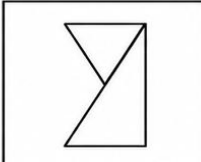

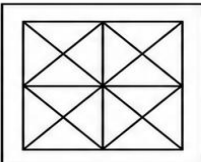

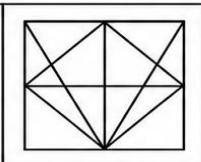

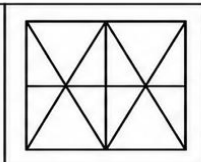

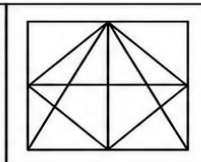

(a)  (b)  (c)  (d) 

Write the correct question number on the OMR Answer Sheet.

Part 5: Instructions: In Questions 17 to 20, a question figure is given on the left side, and four answer figures are given on the right side as (a), (b), (c), and (d). Select the answer figure in which the question figure is hidden/embedded. To indicate your answer, darken the circle corresponding to the respective question number on the OMR Answer Sheet.

17.					
		(a)	(b)	(c)	(d)
18.					
		(a)	(b)	(c)	(d)
19.					
		(a)	(b)	(c)	(d)
20.					
		(a)	(b)	(c)	(d)

Section I: (B) Environment

Instruction: For Questions 21 to 35 given below, find the correct option from the alternatives provided and darken the corresponding option letter on the OMR Sheet.

21. Which green pigment in the leaves of plants helps absorb sunlight?
 (A) Carotene (B) Chlorophyll (C) Xanthophyll (D) Anthocyanin
22. Which gas is released by plants during photosynthesis and is essential for human respiration?
 (A) Carbon dioxide (B) Nitrogen (C) Oxygen (D) Hydrogen
23. Which is the main source of water that naturally recharges groundwater?
 (A) Rainwater (B) Sea water (C) Sewage water (D) River water
24. Which ecosystem is known as the lungs of the Earth?
 (A) Desert (B) Forest (C) Ocean (D) Grassland
25. What are animals that eat only plants called?
 (A) Carnivores (B) Omnivores (C) Herbivores (D) Parasites
26. What is the process of conversion of water vapour into water droplets called?
 (A) Evaporation (B) Condensation (C) Melting (D) Transpiration
27. Which bird is known for flying backwards?
 (A) Pigeon (B) Sparrow (C) Hummingbird (D) Crow
28. What do we call the process of conserving land by planting trees?
 (A) Afforestation (B) Mining (C) Irrigation (D) Industrialization
29. Which animal changes its colour to blend with its surroundings?
 (A) Elephant (B) Chameleon (C) Cow (D) Horse

30. What is the main source of energy for the water cycle?
(A) Moon (B) Wind (C) Sun (D) Clouds
31. Which vitamin do we mainly get from direct sunlight?
(A) Vitamin A (B) Vitamin B (C) Vitamin C (D) Vitamin D
32. Which organ of the human body pumps blood?
(A) Lungs (B) Heart (C) Kidney (D) Brain
33. How many bones are there in an adult human body?
(A) 106 (B) 206 (C) 306 (D) 406
34. Malaria is spread by the bite of which insect?
(A) Fly (B) Female Anopheles mosquito (C) Honeybee (D) Insect
35. What is the primary natural source of light and energy on Earth?
(A) Moon (B) Sun (C) Wind (D) Water

Instruction: Read the passage and choose the correct option from the given alternatives for Questions 36 to 40. Mark the corresponding option letter on the OMR Sheet.

Passage

Today, pollution has become a major problem in our environment. Smoke released from vehicles and factories mixes with the air, causing air pollution and making it difficult for us to breathe. Water pollution occurs when garbage and chemical-laden water are discharged into rivers and lakes, contaminating drinking water. Excessive use of plastic damages the land. Due to pollution, the temperature on Earth is increasing, and humans as well as animals and birds are falling ill. If we want to save our planet, we must plant more trees, stop using plastic, and prevent the wastage of water.

36. What type of pollution is caused by smoke from factories and vehicles?
(A) Water pollution (B) Air pollution (C) Land pollution (D) Noise pollution
37. What causes water pollution?
(A) Planting trees (B) Throwing waste into rivers (C) Rainfall (D) Saving electricity
38. Which thing is mainly responsible for damaging the land?
(A) Plastic (B) Soil (C) Water (D) Leaves
39. What effect does increasing pollution have on the Earth?
(A) The cold increases (B) The heat increases (C) Trees increase (D) Water becomes clean
40. What should we do to protect the environment?
(A) Use more plastic (B) Plant more trees (C) Waste water (D) Throw waste anywhere

SECTION II : ARITHMETIC TEST

Instruction: For each question from 41 to 60, four possible answers are given in the order (A), (B), (C), and (D). Only one of these four answers is correct. You have to find the correct answer and darken the corresponding circle against the respective question on the OMR Sheet.

41. What is the sum of the natural numbers from 1 to 25?
(A) 322 (B) 325 (C) 350 (D) 285
42. What is the HCF of 48, 144 and 576?
(A) 576 (B) 144 (C) 48 (D) 1
43. 15 thousand + 12 hundred + 5 units = ?
(a) 16205 (b) 18000 (c) 15205 (d) 19165
44. What is the approximate value of 16268 to the nearest tens?
(A) 16200 (B) 16300 (C) 16260 (D) 16270
45. The sum of two angles is a straight angle. Which of the following is not possible?
(A) One right angle and one acute angle (B) One obtuse angle and one acute angle
(C) Two acute angles (D) Two equal angles
46. How many packets of sweets can be made from 30 kg of sweets, if each packet weighs $\frac{2}{3}$ kg?
(A) 20 (B) 30 (C) 40 (D) 45

47. The Sampurna Kranti Express leaves Patna at 5:50 p.m. and reaches New Delhi at 8:15 a.m. the next day. What is the total travel time?
 (A) 12 hours 25 minutes (B) 14 hours 35 minutes
 (C) 14 hours 25 minutes (D) 12 hours 35 minutes

48. What is the greatest four-digit number in which all the digits are different?
 (A) 9876 (B) 9768 (C) 9867 (D) 9786

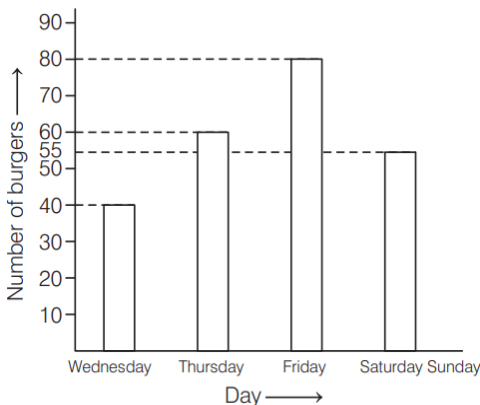

49. 258, 130, 66, 34, 18, What is the next term?
 (A) 12 (B) 10 (C) 8 (D) 13

50. Which number, when divided by 17, gives quotient 23 and remainder 7?
 (A) 368 (B) 328 (C) 358 (D) 398

51. Using the digits 3, 0, 8, 2 and 7 only once, which is the smallest five-digit odd number?
 (a) 20,783 (b) 20,837 (c) 20,387 (d) 20,378

52. 5.5 hectometres = metres
 (a) 5500 (b) 550 (c) 55 (d) 0.55

53. The bar graph given below shows the sales (number of burgers) of a burger seller for 5 days. If the total sales were 320 burgers, how many burgers were sold on Sunday?

(A) 85 (B) 80 (C) 75 (D) 90

54. Find the following value: $5 - \left(2\frac{1}{2} - \frac{3}{4}\right) + \left(3\frac{1}{2} - 1\frac{1}{4}\right)$

(A) $4\frac{1}{2}$ (B) $5\frac{1}{2}$ (C) $5\frac{1}{4}$ (D) $3\frac{1}{2}$

55. If we write all the numbers from 1 to 100, how many times will the digit 9 appear?
 (A) 19 (B) 20 (C) 21 (D) 23

56. Select the prime even number from the following numbers.
 (A) 4 (B) 6 (C) 2 (D) 13

57. What is the sum of 7.7, 7.07, 7.007 and 77.0077?
 (A) 98.7807 (B) 98.7847 (C) 98.7877 (D) 98.7777

58. What is the greatest number that exactly divides both 16 and 20?
 (A) 40 (B) 32 (C) 80 (D) 4

59. The H.C.F. of two co-prime numbers is
 (a) 0 (b) Sum of both numbers (c) 1 (d) Product of both numbers

60. Each side of a square is 10 metres. What is the area of the square?
 (A) $100m^2$ (B) $90m^2$ (C) $30m^2$ (D) $40m^2$

Section III: LANGUAGE TEST

Instruction: This section contains four passages. Five questions are asked at the end of each passage. Read each passage carefully and answer the questions based on it. Four possible answers are given for each question as (A), (B), (C), and (D). Only one of the four answers is correct. Find the correct answer and darken the corresponding option letter in the appropriate place on the OMR Sheet.

Passage 1

A king fell ill, and the physicians said that only a sudden fright could make him well. But the king was not someone on whom anyone could play a joke—except his jester. One day, when the jester was with him in a boat, he cleverly pushed the king into the water. Help was already ready, so the king was immediately brought to the shore and allowed to rest in bed. The king recovered because of the fright, the bath, and the rest. However, he became so angry with the jester that he banished him from the kingdom. When the jester returned, the king ordered that he be sentenced to death. But the king secretly said that he would “take revenge on fright with fright.” He told the executioner not to use an axe, but simply to drop one drop of water on the jester’s neck. The jester was brought to the execution platform. The executioner dropped one drop of water on his neck. The people laughed and shouted, “Thank the king for his mercy!” But the jester did not move; he died because of his king’s joke.

61. How did the sick king get well?

- (A) The jester pushed the king into the water from the boat; the king recovered because of fear, bathing and rest.
- (B) The jester called expert doctors who cured the king.
- (C) The doctors kept joking with the king, which made him well.
- (D) The king carefully followed the doctors' treatment and gradually recovered.

62. Who could dare to joke with the king?

- (A) Only the queen (B) Only the jester (C) Only the doctors (D) Only the king's son

63. Why did the king banish the jester from the country?

- (A) Because he was unsuccessful and did no work.
- (B) Because he played a dangerous joke on the king, which made the king angry.
- (C) Because the king banished him on the advice of the doctors.
- (D) Because he deliberately behaved badly with the king.

64. How did the jester die?

- (A) His master's joke killed him. (B) He was drowned in water.
- (C) The king hanged him. (D) The king banished him and he died of hunger.

65. Did the king really want to kill the jester?

- (A) Yes, he really wanted to. (B) No, the king did not want to.
- (C) The passage does not mention this. (D) It is difficult to infer from the king's order.

Passage 2

“Prevention is better than cure.” The only way to get rid of malaria is to eliminate the mosquitoes that cause it. Malaria is always associated with humid regions and areas having water bodies. This is not because of the humidity itself, but because stagnant (still) water is the breeding ground for mosquitoes. Malaria occurs only rarely in desert regions where there is no stagnant water because mosquitoes cannot breed there. The only way to eliminate mosquitoes is to stop their breeding in stagnant water.

66. Which is the most suitable title for this passage?

- (A) Prevention Is Better Than Cure (B) How to Get Rid of Malaria
- (C) Breeding Ground of Malaria (D) Poisonous Mosquito

67. How is malaria caused?

- (A) By contaminated food (B) By contaminated water
- (C) By mosquitoes in humid regions (D) It is a seasonal disease with no cause.

68. How can one get rid of malaria?

- (A) By killing mosquitoes and stopping their breeding in stagnant water.
- (B) By vaccination.
- (C) By taking immunity-boosting medicine.

(D) By taking quinine tablets regularly.

69. Why does malaria not occur in deserts?

(A) Because the desert sand kills mosquitoes.

(B) Because mosquitoes cannot breed there.

(C) Because there is no pollution in deserts.

(D) Because people there become resistant.

70. What is the opposite of 'stagnant'?

(A) Unstable (B) Deep (C) Shallow (D) Flowing

Passage 3

Many homemakers who visited the Kalpataru Supermarket in Bengaluru had a great dream — “to become the lucky customer who would not have to pay for the items purchased.” At the entrance of the shop, it was announced: “Remember, every week one of our customers gets the goods free — this could be your lucky day!”

For many weeks, Mrs. Batliwala hoped that one day she too would be lucky. Her kitchen became filled with many things that she did not actually need. Her husband could not stop her. She often dreamed that the store manager would come and say, “Madam, this is your lucky day. Everything in your basket is free.”

One Saturday, she did her shopping and left the store. Then she remembered that she had forgotten to buy tea. She went back and bought the tea. When she was walking towards the cash desk, the manager came and said, “Madam, congratulations! Today you are our lucky customer. Everything in your basket is free.”

71. In the phrase 'It said', what does 'it' refer to?

(A) Notice (B) Cash desk (C) Basket (D) Supermarket

72. What happened on the lucky day?

(A) The person who made the most purchases received a prize.

(B) One customer got the goods free.

(C) Every customer received some money.

(D) Every customer got one item free.

73. Why did Mrs. Batliwala buy things that she did not need?

(A) She hoped that one day all the things would be free. (B) She was fond of shopping.

(C) She liked sharing things with friends.

(D) She liked showing off.

74. What does 'Her husband could not stop her' mean?

(A) Her husband wanted her to shop every day.

(B) Her husband wanted her to stop buying things she did not need.

(C) Her husband wanted her not to be fooled by the manager.

(D) Her husband wanted to do the shopping himself.

75. Why did the manager congratulate Mrs. Batliwala?

(A) Because she had become a regular customer. (B) Because she was the luckiest customer.

(C) Because her husband was very generous.

(D) Because she did not have to pay for the goods.

Passage 4

A person who looks at the positive side of life sees good results in life. Such a person is called an “Optimist.” A person who looks at the negative side is called a “Pessimist.” A person who sees the good qualities in others makes many friends and lives a happy life. Those who always look for faults make their own lives and the lives of others unhappy. We want people not to pay attention to our faults, so we should have the same expectation from others. Therefore, the best way to live a happy life is to learn to see the good qualities in others.

76. Who is an 'optimist'?

(A) One who finds faults in everything.

(B) One who sees the positive side.

(C) One who enjoys helping others.

(D) One who is interested in finding faults.

77. What do we expect from others?

(A) They should help us.

(B) They should become our friends.

(C) They should not pay attention to our faults.

(D) They should be good neighbours.

78. What does a 'pessimist' do?

- (A) Sees the positive side. (B) Sees the negative side.
(C) Makes friends. (D) Looks only after his own interests.

79. What is the benefit of being an 'optimist'?

- (A) He makes many friends and lives a happy life.
(B) He adopts good values that help him live a happy life.
(C) He can tolerate the difficulties of life.
(D) He helps others, and therefore others help him.

80. Which word in the passage means 'sad, pitiable'?

- (A) Pessimist (B) Optimist (C) Bad (D) Distress
